National Emission Standards for Hazardous Air Pollutants
for Source Categories: Aerospace Manufacturing and
Rework

Facilities and Shipbuilding and Ship Repair
(Surface Coating) Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction

SUMMARY: This action corrects the National Emission
Standards for Hazardous Air Pollutants (NESHAP) for
Aerospace Manufacturing and Rework Facilities and
Shipbuilding and Ship Repair (Surface Coating) Operations
promulgated in the FEDERAL REGISTER on September 1, 1995
(60 FR 45948) and December 15, 1995 (60 FR 64330),
respectively. This action also announces that the
Information Collection Requirements (ICR) contained in
the NESHAP for Shipbuilding and Ship Repair (Surface
Coating) Operations have been approved by the Office of
Management and Budget (OMB).

EFFECTIVE DATE: [INSERT DATE OF PUBLICATION IN THE
FEDERAL REGISTER].

aerospace manufacturing and rework facilities standard

contact Mr. James Szykman at (919)541-2452, Emission Standards Division (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711. For information on the shipbuilding and ship repair (surface coating) standard contact Dr. Mohamed Serageldin at (919)541-2379, Emission Standards Division (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

SUPPLEMENTARY INFORMATION:

I. SHIPBUILDING AND SHIP REPAIR (SURFACE COATING)

The NESHAP for shipbuilding and ship repair (surface coating) operations was promulgated in the FEDERAL REGISTER on December 15, 1995 (60 FR 64330) as subpart II of 40 CFR Part 63.

The final rule contained (1) errors in numbering the incorporations by reference which were added to §63.14; (2) improper punctuation in §63.788(b)(3)(ii)(B); (3) a footnote to Table 2 of subpart II which incorrectly identified those coating categories that were not given cold-weather allowances; and (4) inappropriate use of the term "unaffected" major sources in §63.788(b)(1). This action corrects these portions of the final rule. In addition, it

amends the table in 40 CFR Part 9 of ICR control numbers issued by OMB for approved collections of information in certain EPA regulations. At the time of publication of the final rule, the EPA did not have an approved ICR control number to add to the table. The OMB subsequently approved the ICR for the final NESHAP, and the approved ICR control number (2060-0330) is being added to 40 CFR Part 9.

II. AEROSPACE MANUFACTURING AND REWORK FACILITIES

The NESHAP for aerospace manufacturing and rework facilities was promulgated in the FEDERAL REGISTER on September 1, 1995 (60 FR 45948). A notice of correction to the final rule was published in the FEDERAL REGISTER on February 9, 1996 (61 FR 4902) which corrected the deadline for existing sources to submit an initial notification to the Administrator.

The amendatory language for this final rule correction inadvertently referenced paragraph (a)(1) instead of referencing paragraph (a)(2) of Section 63.753. The amendatory language should have read, "Section 63.753 is amended by adding a new sentence to the beginning of paragraph (a)(2) as follows:" This

notice includes the applicable language to make this correction.
